Quick Learner

PROJECTS

Health Insurance System (HIS) - Savina Software Pvt Ltd

02/ 2024-present

HIS project is an intranet application used by DHS Case Workers to manage citizen applications for health and insurance plans.

Roles &Responsibilities:

In this project, there are 5 team members: two responsible for backend development, one responsible for frontend development and others for testing and deployment. I served as the sole frontend developer and created the User Management Module.

User Management Module having some Interface and functionality like Login, Registration form, Forgot Password, Profile Management, and Dashboard.

Skills I Used: React js, React-Router-Dom for navigation, Axios library to fetch data from an API, Bootstrap for CSS, react-responsive-carousel used for creating responsive, customizable carousels for images, content, or sliders. And many libraries for UI like dropdowns, sliders, popup functionalities, used many Hooks one of the hook is useMemo hook for optimization and performance.
