

LATHA MATTHE

Baltimore, MD | +1 (123) 456-7890 | lathammathe@gmail.com | LinkedIn

SUMMARY

Industrial/Manufacturing Engineer (M.S. Industrial Engineering) with hands-on experience in **CAD detailing and manufacturing operations**, delivering **shop-ready drawings**, **process improvements**, and disciplined execution. **Lean Six Sigma**–driven problem solver skilled in **DMAIC**, **PFMEA/FMEA**, **RCA (5 Whys/Fishbone)**, **SOP** standardization, and **KPI/OEE** tracking to reduce rework and improve first-pass quality. Advanced user of **AutoCAD**, **SolidWorks**, **Excel** (VBA/Pivots/Dashboards), **Minitab**, **MS Project**, and **Python automation**; targeting manufacturing/process/industrial engineering and project engineering roles.

SKILLS

Lean & Continuous Improvement: Lean, Six Sigma, DMAIC, Kaizen, 8D, PFMEA/FMEA, RCA, 5 Whys, Fishbone, CAPA, SPC, SOP development, process standardization

Manufacturing & Quality: OEE, KPI tracking, downtime/rework reduction, first-pass yield improvement, ISO 9001 support, documentation control

Software & Data: AutoCAD, SolidWorks, RebarCAD, Python (automation & data analysis), Excel (VBA, PivotTables, dashboards), Minitab, MS Project

Professional: Leadership, training & communication, data-driven decision-making, cross-functional collaboration, time management

PROFESSIONAL EXPERIENCE

Nucor CAD Detailer

Baltimore, MD
Dec 2024 – Present

- Produce accurate placing drawings and bar lists using **AutoCAD/RebarCAD** aligned to CRSI/ACI standards; **coordinate with field teams** to resolve **RFIs** while maintaining **quality and safety** expectations.
- Improve detailing workflow using **Industrial Engineering + Lean methods** (standard work, checklists, visibility boards), achieving a 65% reduction in downtime and a 15% increase in first-pass accuracy within 3 months.
- Lead **cross-functional improvements** by tightening production checks and review discipline, increasing process visibility and driving an 80% productivity improvement.
- Integrate **shop-floor** insights into CAD release practices to strengthen version control, **reduce miscommunication**, and **sustain quality improvements**.

Rohit Industries Manufacturing Engineer

Hyderabad, India
May 2021 – Jun 2022

- **Created 3D models and 2D manufacturing drawings** in SolidWorks; applied Lean and SPC using Excel/Minitab to reduce material waste by 45% and improve cycle time within 6 months.
- Improved product quality by implementing **PFMEA**, **RCA**, and standardized **manufacturing procedures**; supported ISO 9001 quality compliance activities.
- Authored SOPs and process documentation to **increase consistency, reduce variation, and improve team efficiency across production tasks**.
- Mentored interns on **CAD fundamentals** and **Lean concepts**; improved onboarding speed and adherence to standard practices.

PROJECTS

- **Crane Safety (Kaizen):** Improved overhead crane safety by addressing load-path and signaling issues, adding visual controls, and reducing near-miss incidents by 30%.
- **Fabrication Workflow:** Re-engineered fabrication cell layout to cut handling time and improve throughput flow.
- **Smart Mirror Product Development:** Integrated defogging, AI voice controls, lighting, and cosmetic features; applied Six Sigma and House of Quality to map customer needs to technical specs.
- **Market & Cost Analysis:** Conducted TAM/SAM/SOM analysis, led cost surveys in Baltimore, and managed a 6-member Scrum team to deliver the project in 22 days.

EDUCATION

University of Maryland, Baltimore County (UMBC)
M.S., Industrial Engineering
Relevant Coursework: Project Management, Manufacturing Operations, Strategic Management

Baltimore, MD
Aug 2022 – Jun 2024

Geethanjali College of Engineering and Technology
B.S., Mechanical Engineering
Relevant Coursework: Engineering Drawing, Materials Science, Product Development

Hyderabad, India
Aug 2017 – Jul 2021

CERTIFICATIONS

- **Six Sigma Green Belt** — Council for Six Sigma Certification (CSSC)
- **Lean Six Sigma White Belt** — CSSC
- **OSHA 10-Hour** General Industry Safety
- **Python for Process Automation**
- Diploma in Mechanical CADD (**SolidWorks, AutoCAD**)
